THE President is again, we deeply regret to say, in a critical condition. He is passing through a third crisis, and is so weak, wan and worn that his friends and physicians have grave apprehensions of his ability to go through it safely. We hope for the best, but confess our fears that the brave and patient sufferer can survive much longer.

The verdict of the Coroner's jury was death from heart disease, superindiced was death from heart disease. New York, September 16.—The Committee passes lutions to-night expressive of their

murder. He has not been apprehended.

MUSCOGEE, I. T., September 16.—The eighth annual Internation Fair of the Five Nations of the Indian Territory closed today, after four days creditable exhibition and large attendance. Owing to the great drought the Fair did not come up to last year. Hon, W. W. Wilshire, of Little Rock, made the annual address. The famous Spencer military band of Indiana was present. Many exhibitions of needlework done by native wemen would do credit to any fair. Many native lady riders contended for the prizes; some rode bareback. Several fine native prizes were contended for.

AUTUMN OPENINGS

CLEVELAND, September 16.—The iron markets are firm and prices generally un-changed this week. Iron ore continues

PITTSBURG, September 16.—Trade has been stimulated by the cool weather of the past week, and more activity in all branches of business is noticeable than for a long time. Nearly everything has been advanced in price and a confident feeling prevails among merchants and manufacturers as regards the future.

BALTIMORE, September 16.—During the past week money has been firm at six per cent. The stock market was fairly active, the most notable feature being a sharp advance in Virginia issues. The value of the domestic produce exported for the week was \$1,197,301, against \$980,477 for the previous week.

St. Louis, September 16.—General trade has been active and full for the past week, and everybody has been busy. Money has been in urgent demand by all classes. Borrowers, in fact, are beyond the capacity of banks to supply, and first-class paper has been rejected in some instances, owing to the search of funds.

NEW ORLEANS, September 16.—Business in spot cotton has been quite fair for the season, prices being reduced †@dc, owing to unfavorable advices from other markets. The termination of the strike has improved the prospects of movement. The future market has been very active; sales, 425,000 bales; prices fluctuated widely, closing 40 points cheaper than last week. Heavy rains have prevailed in the Mississippi Valley and Texas, and light showers on the Atlantic seaboard. Opinions vary as to the effects of the rains upon crop prospects. Frost was reported at Little Rock this morning. Extreme dullsess has prevailed in financial circles.

Louisville, September 16.—Leaf tobacco offerings have been and are yet light and mostly of old-cut order tobacco, on which holders wished to realize, the demand being for nanufactured. Less activity has pre-vailed, with prices, compared with last Sat-urday's, 1@1c lower on funked smokers and 1@1c on planters' lugs and leaf, prices which are fully sustained. On Wednesday and Thursday heavy rains fell, which will injure the crops which are ripe or nearly

will set plows going everywhere for wheat. General business for the week has been excellent. The Exposition and the Soldiers' Reunion have attracted large numbers of visitors, and, very naturally, they have found it convenient to attend to business at the same time.

ture of fall work, as well as through the advent of autumn, with its cool and bracing weather. Some kinds of business are so deluged with orders that the proprietors are refusing further calls on them out of necessity. Seeding will now go rapidly forward, and the grass will suffice to feed the stock. To-day's snow-storms in Northern Iowa and Southern Minneset. Southern Minnesot: seem to have had no Southern Minnesot: seem to have had no disastrous effect, as they were unaccompanied by freezing. To-night, however, there may be a freeze that will damage the corn in some localities. Reports indicate that the drouth has done its werst work.
